## WELCOME

### *Welcome to the municipality of Moerdijk!*

How wonderful that you have come to our municipality. Happy to tell you more about it. The municipality of Moerdijk consists of 11 towns, has beautiful centers with stretches of open countryside and is surrounded by water. So a real Dutch landscape – even complete with windmills. The centers and villages each have their own character. The town of Zevenbergen is the main town. Our residents are sociable and welcoming. There are good facilities, such as elementary schools, sports clubs and stores.

Moerdijk is an important economic engine for the region thanks to its seaport. You can get around well by road or rail, and Rotterdam (40 km) and Antwerp (60 km) are both easily accessible.

An emphasis is placed on the use of natural resources and renewable, green energy, as well as to the safety of the port and industrial area. Maybe you'll end up working at one of these many contemporary companies within our community.

In summary, Moerdijk is a lively municipality where you can enjoy living and working. In this information guide you will find information to help you find your way around our municipality. In addition to rights, you also have some duties. You can also get different forms of support. For important documents such as getting married, having children, passport or driver's license, you need the municipality. You can read all about it in this folder.

So on behalf of the aldermen and the municipal council, I wish you a wonderful and enjoyable time here.

A.J. Moerkerke  
Mayor

## Traffic

The Netherlands has strict rules on alcohol and drug use in traffic and the fines are high. You also put yourself and others in serious danger. There is a limit of 0.5 per mille. Driving under the influence of alcohol or drugs is a crime.

Vehicles must have a valid license plate, otherwise they may be taken off the road by the police. A foreign license plate allows you to drive around tax-free for a maximum of 6 months. If you are registered here, you must also register your car with the Rijksdienst voor het Wegverkeer (Dutch national road service) and have your license plate transferred to a Dutch license plate. Also, you then have to start paying road taxes. Sometimes a waiver is available through the Dutch Internal Revenue Service.

## Insurance

If you live in the Netherlands and work at a Dutch company, you are required to have Dutch health insurance. Sometimes your employer or the employment agency will help you with this. If you are organizing your own health insurance, do so as soon as possible and in any case within four months after you start working here. You pay your own medical expenses during the period you are not insured.

Anyone who causes damage to another is financially liable for this. "Third-party vehicle insurance" is mandatory. Drivers of motor vehicles without third-party vehicle insurance are punishable.

## Working

### **ID**

In the Netherlands, you must always be able to identify yourself, including at work. Your employer will make a copy of your ID or passport. However, your employer must return it to you afterwards.

### **Dutch bank account**

Your employer transfers your wages to your Dutch bank account. This can also be done to a foreign bank account, but it will take longer to get your paycheck.

### **Employment contract**

An employment contract contains the agreements, rights and obligations about your work. That way it is clear to both parties. Sometimes appointments are made verbally. If so, always ask for a written confirmation.

### **Fairwork.nu**

The FairWork foundation focuses on supporting foreign workers in the Netherlands. You can ask them your questions anonymously and free of charge.

### **Dismissal**

If you have been dismissed and find yourself without an income, it is important to find a new job as soon as possible. You can do this, for example, through the [UWV](#) (Dutch Employee Insurance Agency), through the European Union website ([EURES](#)) or through employment agencies.

If you no longer have a job here, but still live in the Netherlands, you can apply for an [unemployment benefit](#) for the time you are out of work. You do this at the UWV, the benefits organization in the Netherlands. You do then have some obligations. For example, to stay in the Netherlands and apply for jobs and keep the UWV informed.

### **workinnl.nl**

When you come to work and live in the Netherlands, a lot is involved. At [workinnl.nl](https://workinnl.nl) you will find explanations of your rights and obligations, what you need to do and what arrangements you need to make. This will help you live and work here safely and healthily. This website also provides a collection of appropriate agencies that can help you with any questions. The website is in Dutch, English, Spanish, Polish, Romanian and Bulgarian.

## **Housing**

It is difficult to get housing in the Netherlands. Rental housing is in high demand, but there are not that many homes for rent. That is why there are waiting lists. You can rent through a corporation or through private rentals. Sometimes your employer will provide housing.

The price for homes for sale is currently high. You must have sufficient income and usually steady employment to take out a mortgage. You also need equity that you have to put in to buy a house.
